

## You care about every part of your clients' needs. So offer them care that fosters their physical, emotional, and social wellness.

When you recommend CenterWell to a client, you're recommending a holistic approach to wellness, delivered through a unique care model. They'll get more time with their doctor and a customized care plan—all within a supportive community. But we don't just support them, we support you, too.

### What we offer patients

#### More time with the doctor

Seniors often face complex health challenges, and that is why we better equip our doctors to address each aspect of the patient's health. Our short wait times and same-day appointments also ensure the appropriate time needed for both doctor and patient.

#### Our care team

Our patients receive comprehensive, coordinated and personalized care through our care team—physicians, NPs, MAs, office staff, social workers, care coaches and center administrators. We are currently hiring behavioral health specialists and pharmacists to enhance our care team and ensure we are meeting all the health needs of our patients.

#### A better patient experience

Our buildings have been improved to offer a better patient experience. We also have on-site wellness centers at some locations and now offer virtual education opportunities as well as year-round social programming.

#### A multitude of in-house services

Diagnostics,\* labs, immunizations and more are all performed on-site.

### What we offer agents

#### Community engagement

We look for opportunities to educate our communities by partnering with agents to bring educational events and sales seminars to your members and prospects.

#### We keep track of the agent of record

We assist our patients with navigating their healthcare and take the time to answer benefit or claims questions. However, our CRM holds true to the agent of record so that if a patient has a specific Medicare-related question, we can direct them straight back to you. If a patient does not have an AOR and wants more information about Medicare options, we can direct them to agents, like you, who can answer their questions.

#### Patient satisfaction and retention

Patients who are happy with the quality of their healthcare are less likely to switch physicians year over year—making your job easier.

#### Improved patient outcomes

We integrate population health analytics, social support services and chronic care management into our care model to ultimately improve the health of our patients—your clients.

#### Local dedicated teams

Our local teams not only serve our patients but also collaborate with you. You have dedicated team members to call about touring our centers, learning about our unique care model, hosting an educational or sales event in our activity room as well as working a community event together.

\*At select locations

Let's work together. For agent resources, including market guides, white papers and more, visit [CenterWellPrimaryCare.com/agents](https://CenterWellPrimaryCare.com/agents).

# 21 locations in central Florida
